

Consumers with vision loss are invited to participate in any of the following events.

To register, go to Events @ [www.tvisc.org](http://www.tvisc.org).

## ***NFC Tag Training***

This one-hour training will introduce NFC Tags and how they can be used as an assistive tool for adults with vision loss. This FREE class will be offered in person at the TVI Office on **Thursday, March 9th from 10:00 AM to 11:00 AM.**

## ***VoiceOver Bundles***

This is a FREE, unique training opportunity for consumers with vision loss. The consumer chooses the location (in the office or virtual) and the training topic they need to more easily access VoiceOver on an iOS device. The bundle includes two, 1-hour Training Sessions with an assistive technology trainer to fit consumer needs. This training opportunity is perfect for the beginner or advanced user of VoiceOver iOS devices!

## ***Low Vision Open House***

“Try before you buy” with our wide range of magnifiers, monoculars, CCTVs, and text-to-speech devices! Our Low Vision Open House is a great way to demo devices with our on-staff Certified Low Vision Therapist (CLVT). Schedule a time that suits your schedule and come check out a variety of magnifiers, monoculars, CCTVs, and text-reading devices.

## ***Ask the Expert***

*Ask The Expert* is a FREE one-hour session for consumers with vision loss to connect with a Certified Low Vision Therapist (CLVT), Certified Orientation and Mobility Specialist (COMS), or an Assistive Technology (AT) expert to answer your most technical question and/or problem solve a device, mobility, or technology issue. The consumer can choose to have their session in office or virtual.
